

SCRABBLE™ DABBLE CHALLENGES

Goal

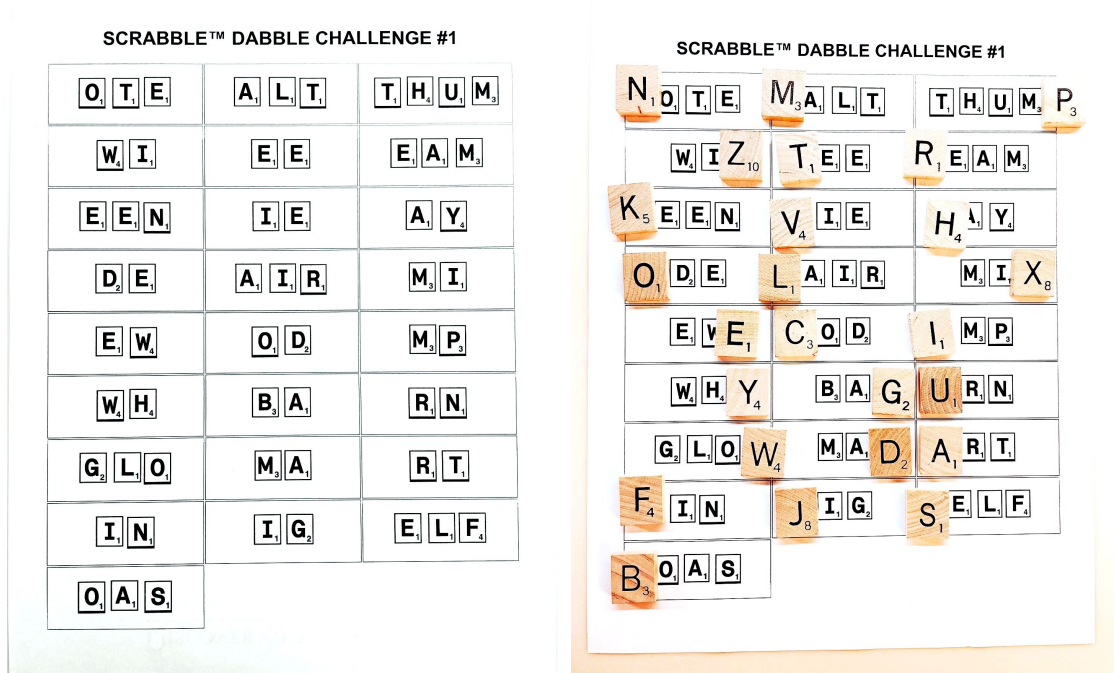

This book contains 5 challenges to play using your own set of Scrabble™ or Bananagram™ tiles.

The goal of each DABBLE challenge is to decode 25 mystery words.

Add only one letter tile to either the beginning or end of each fragment. When the letter is combined with a fragment, it must form a valid word with 3 to 5 letters. These are solitaire challenges that may also be played cooperatively.

How to Play

Grab 26 different letter tiles, one of each letter A-Z. For each challenge, place one letter before or after each of the word fragments in the grid. Each set of fragments is missing one letter and can form at least two different words. Shuffle around and move the tiles until you have formed 25 valid words and completed the challenge. Multiple solutions are possible.
