# Puzzler's Quest

July 8, 2023)

Puzzler's Quest is a word game played on a worldly puzzle of a map you assemble. This is the famous illustrated "World Wonders" pictorial map created in 1939 by Ernest Dudley Chase. Decode mysteries found within the content of the puzzle's image.

START YOUR QUEST

After assembling the puzzle, start the web app and print your first five challenges. Each time you print a set of challenges, they will all be unique.

SOLVING A CHALLENGE

Below is an example of solving a challenge.

In order to solve any challenge, follow the clues. Each clue has a question. Find the answer somewhere within the map. Write the answer in the adjacent boxes, one letter per box.

Some of the boxes will have a number. Transcribe the letter from each of the numbered boxes into the respective numbered mystery words.

With all letters transcribed, unscramble each word.

Finally place each mystery word into the mystery sentence.

The largest of the pyramids?

Europe's highest mountain?

Who flew around the world in 1938?

Who flew solo around the world in 1933?

What was destroyed in the year 79?

What's the animal near 1937?

Which city is southwest of Quebec?

What is the supreme metropolis?

A city near the Stanovoi Mountains?

Combine all of the marked letters above and unscramble them into words below.
