TOOL			CITY		
AMPHIBIAN			WET		

GOAL

Two or more players compete to write down words in various matching categories.

SET UP

Print a random game board above.

TIP: Laminate for dry erase use.

Grab 26 A-Z Scrabble® tiles, one per unique letter.

Flip all 26 letter tiles face down between the players.

Agree upon the number of completed pairs as a winning condition. By default, ten pairs will win.

RULES

Playing in turns, a player flips over a tile and places it aside.

Players call out a word that starts with that letter and write the word in one of the matching categories on their page.

However, players must fairly agree the word is valid.

Note: If "X" is drawn, any word containing "X" is allowed (eg TAXI).

Once all 26 tiles have been used, flip them all face down and continue.

WINNING

The first player to fill at least ten pairs of categories is the winner.
