## OVERVIEW

Use your complete set of Scrabble® tiles to match patterns to make words.

### SET UP

Select a game page.

Flip all your Scrabble® tiles face down.

### GAME PLAY

Pick up three tiles each round.

Place letters to make words.

Each group of horizontal cells constitutes a word.

Each cell contains either a "C" or "V" or a number.

Place letters by matching a consonant with "C" and a vowel with "V".  
or place letters matching a number with their value 1-3.

Note that you will probably end up moving letters around  
between groups to maximize your score.

Fill the page with as many words as you can.

### SCORING

Once all letters have been drawn, score the completed words.

One point per vowel and one point per consonant.

Play again to beat your best score.
