OVERVIEW

One or more players use your Scrabble® tiles to match patterns to make words.
Game play is in rounds. Player ten rounds.

SET UP

Print one page above per player.
Flip all your Scrabble® tiles face down.

SIMULTANEOUS GAME PLAY

All players play at the same time and have one minute per round.
Players pick up three tiles each round.
Place letters to make words.

Each group of horizontal cells constitutes a word.
Each cell contains either a "C" or "V".
Place letters by matching a consonant with "C" and a vowel with "V".

Note that you will probably end up moving letters around
between groups to maximize your score.

SCORING

Once all letters have been drawn, score completed words.
One point per vowel and one point per consonant.
Highest score wins. Tie breaker: highest valued letters.
