OVERVIEW

Use a set of your own Scrabble® tiles to "fill in blanks" to complete words. Print one of the pages above, the same one for each player. Place all tiles, except blanks, face down between players.

GAME PLAY

Players take turns flipping over a tile and placing it on their page.

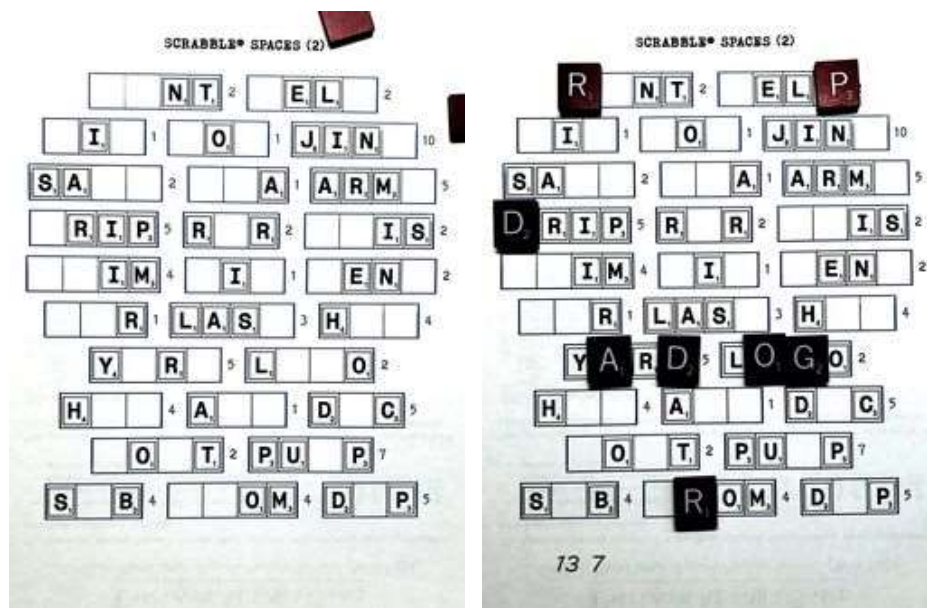

Place the tile in a space to help complete a word.

If a word is made, total up the value of the word and record its value at the bottom of your page.

Return the tile(s) to the draw pile.

Repeat until one player has at least 50 points for the win.

All other players have one more chance to beat the score.
