GOAL

Nine words have been hidden within each coded grid. They are aligned left to right, one word per row. Find them using your own set of Scrabble® tiles.

INSTRUCTIONS

Print one of the game pages above. Grab a set of Scrabble® tiles that matches the letters in the hidden words.

GAME PLAY

Place your letters on the two-letter fragments (bigrams)
such that they will make a three-letter word.
The added letter tile can be at the start or end of the bigram.
The hidden word will appear as you align your tiles.
Lighter bigrams are part of one secret word.
