

COVER YOUR ASPS

A Polyominoes Strategy Game

As an intrepid tomb raider, navigate the newly discovered Egyptian tomb of Quadi Ombi to collect the treasures hidden within its inner chamber. Reach the treasure vault to reap your reward, but avoid the dangers within.

Play on a configurable board representing an Egyptian tomb, well guarded by quicksand and protected by pits full of asps (Egyptian cobras).

- Build, move or use an action card.
- Roll dice, lay planks, move your explorer.
- Cover all snake pits with planks first.
- Build the best route around obstacles.
- Collect a treasure and escape.
- Avoid scarabs and the giant scorpion.
- Sabotage your opponent(s).
- Raider with most treasure points wins.

Use action cards to your advantage to thwart your opponent while you navigate between moving granite pillars that can block your way.

Escape with your treasure but avoid the giant scorpion placed by your opponent. After a few rounds, win with the most treasure points.

Laser Components: Five interlocking 6x6 gameboards, four sets of polyomino planks, 20 pillars, 4 scorpions, 4 explorer meeples, 28 action cards, 3 treasure vaults, 12 treasure cards, dice.

A route building and collection game for the whole family.
