OVERVIEW

Use a set of your own Scrabble® tiles to complete words.
Print one of the pages above to share among all players.
Place all tiles, except blanks, face down between players.
Each player grabs three tiles.

GAME PLAY

Players take turns placing a tile over any matching letter.
When a word is completely covered, that player takes all the letters
and scores the letters, recording the score at the bottom of the page.
Always maintain three tiles in your hand.
Collected letters are no longer available.

Repeat game play until all letters have been used.
The player with the highest score will be the winner.
