Playtesting Feedback: WORDL3S

1. How long did the game last?
2. How many rounds did you play?
3. What was the most fun part of the game?
4. What was the least fun part of the game?
5. If you played this game again, and just one thing was different that made you think the game had improved, even only by 5%... what would be different?
6. Was there anything in the rules that needs to be more clear?
7. Is this a game you would buy? If so, what do you think you'd pay for this game?
8. Did you feel there were more things you needed to do than you could?
9. Would you play the game again?
10. Does the game name make sense? If not what is a better name?

Thank you for playing and helping test.
